**GEORG FISCHER**  
PIPING SYSTEMS

# 40 Years of Application Know How

Our long experience in plastic piping systems applications is also for your security. Approvals and third party controls are guarantee for continuously high

quality. Many of our products have the necessary approvals of the relevant institutes and thanks to the batch identification they are traceable.

## Fields of applications

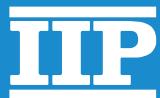

Our specialists are proving their wide material knowledge and their application experience day by day in various industries:

- Water treatment
- Waste water treatment
- Galvanics
- Chemical industry
- Automotive industry
- Electronic industry
- Energy
- Swimming pools
- Cellulose and paper industry
- Photo industry

- Textile industry
- Shipbuilding
- Beverage industry
- Exhaust gas cleaning
- Chlorine industry
- Cooling and air conditioning
- Refrigeration plants
- Food
- Mining

Do you miss your application in the above list? No problem. Please call us, and we will find a solution according to your specifications.

## Approvals

## Lebensmittelzulassung

## MAIRIE DE PARIS

## Shipbuilding approvals

## Germanischer Lloyd

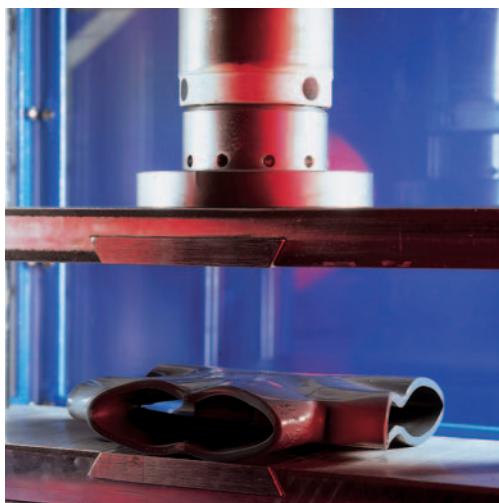

# Quality Products with Advantages

Quality management system certified according to ISO 9001/EN 29001 and ISO

Energy required for 100 m pressurised pipe

## Advantage of Wide Product Ranges

### Fittings

### Hand Operated Valves

### Pipes

### Jointing Systems

### Actuated Valves

### Measure and Control Technology

### Machines and Tools

available in four standards: ISO/DIN, ASTM/ANSI, BS and JIS

## Advantage of Quality

### Compound

Our own compound and strict quality controls for each raw material delivery form the basis for George Fischer's high quality products.

### Production Know-How

Due to know-how gathered over 40 years we are able to produce our products to exceptionally high tolerances.

## Advantage for the Environment

In addition to the economical advantage of PVC-U, PVC-C and ABS there are also ecological advantages:

- Preserving diminishing natural resources
- Less energy required
- Possibility of recycling
- Very long life span

## Advantage of Production Quality Control Tests

### Pressure Pulsation Testing 1000 h Test

### Chemical Resistance Functions

### Temperature Cycling Test

### Cyclic Bending Test

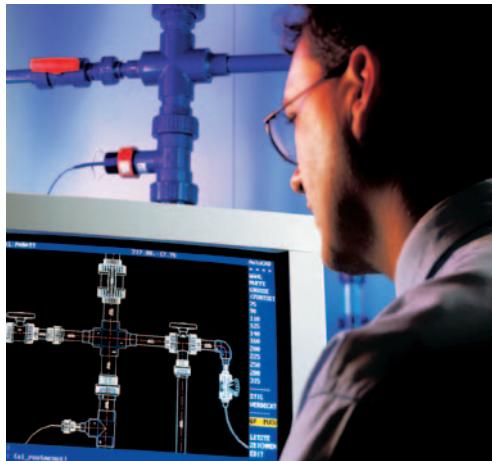

Independently accredited test laboratory for components of plastic piping systems according to SN EN ISO 45001

# for Professional Users

## Advantage in Planning

### One-stop-shopping for complete systems

Many customers prefer to purchase the complete piping system from one supplier. Because only systems that are designed to complement each other guarantee easy planning, installing and efficient functioning of the piping system.

### CAD Product Library

For drawing and providing a list of orders Georg Fischer's CAD Product Library is an optimal solution. Can be used with AutoCAD and other CAD systems.

## Advantage of Choosing the Right Material

For maximum safety and optimal durability of a piping system the choice of raw material and pressure class of the pipe parts is highly important. The raw material's suitability to the medium can be checked with the help of our chemical resistance list.

## Advantage of Installation Technique

Cement jointing is simple, fast, economical and very reliable.

Over 100 million homogenous joints have been made over the total life time of piping systems, achieving the highest quality requirements.

## Advantage of Support

### Training

George Fischer offers training possibilities at our regional sales companies, in our own training center in Schaffhausen or at your premises. For cement jointing we can also provide you with a training video.

### Worldwide Distribution

Sales companies, representatives and dealers from George Fischer can supply you with complete technical advice, punctual distribution and fast service in almost every corner of the world.

# George Fischer quality is no coincidence!

More than 40 years of research, development and experience have shaped our high standard of quality. You will find the solution to your problem in our extensive product range:

## Solvent Cemented Systems

### PVC-U

Unplasticised  
Polyvinyl Chloride

**Range of sizes:**  
6–400 mm, BS  $\frac{3}{8}$ " – 8"

**Resistant to:**  
Acids and alkalis

**Recommended applications:**

Drinking water, distilled water, general purpose water, waste water, coolant brines, sea water, construction of plant and apparatus, foodstuffs, beverages. Universally applicable plastic with the widest range of fittings and valves

**Not recommended for:**

Aromatic solvents, ester, ketones, chlorinated hydrocarbons  
low temperature uses ( $< 0^{\circ}\text{C}$ )  
high temperature uses ( $> 60^{\circ}\text{C}$ )

### PVC-C

post-chlorinated PVC-U

**Range of sizes:**  
16–225 mm

**Resistant to:**  
Acids and alkalis at high temps (max.  $90^{\circ}\text{C}$ ) and high concentrations

**Recommended applications:**  
Hot and aggressive mediums, high temperature, high corrosive environments, chemical industry generally (e.g. mixed acid waste) and hot water industrial applications

**Not recommended for:**  
Aromatic solvents, ester, ketones, chlorinated hydrocarbons  
low temperature uses ( $< 0^{\circ}\text{C}$ )

### ABS

Acrylonitrile Butadiene Styrene

**Range of sizes:**  
16–315 mm  
BS  $\frac{3}{8}$ " – 8"

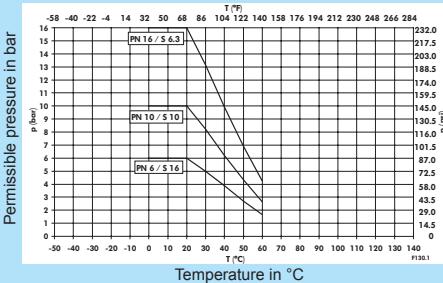

**Resistant to:**  
Alkalies, weak acids, and salts

**Recommended applications:**  
Low temperature brine, chilled water, refrigerants, air conditioning, drinking water, water treatment, process water, mining industry, and foodstuffs

**Not recommended for:**  
High temperature uses ( $> 60^{\circ}\text{C}$ )  
bleaches, aromatic solvents, ester, ketones and alcohols

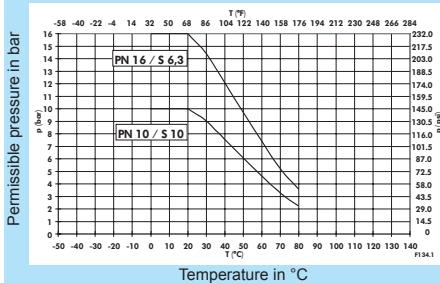

### Application Limits for Pipes and Fittings in PVC-U

25-year values with Design Factor C included at  $20^{\circ}\text{C}$  water

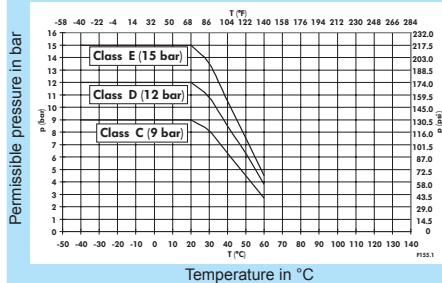

### Application Limits for Pipes and Fittings in PVC-C

25-year values with Design Factor C included at  $20^{\circ}\text{C}$  water

### Application Limits for Pipes and Fittings in ABS

25-year values with Design Factor C included at  $20^{\circ}\text{C}$  water

# List of abbreviations

ANSI	American National Standard	DN	Nominal bore
ASTM	American Society for Testing and Materials	PN	Nominal pressure at 20°C, water
BS	British Standard	kg	Weight in kilograms
DIN	Deutsche Industrie-Normen	SP	Standard pack. The figure given indicates the quantity of fittings contained in a standard pack
ISO	International Standardization Organisation	GP	Gross pack. The figure given indicates the quantity of fittings contained in a gross pack
ABS	Acrylnitril Butadien Styrene	G	Pipe thread, not pressure tight in the thread to ISO 228-1
PVC-U	Polyvinyl Chloride	NPT	Taper male thread pressure tight in the thread to ANSI B 1.20.1
PVC-C	Polyvinyl Chloride chlorinated	R	Taper male thread, pressure tight in the thread to ISO 7-1/DIN 2999-1
PP	Polypropylene, heat stabilised	Rc	Taper female thread, pressure tight in the thread to ISO 7-1/DIN 2999-1
PE	Polyethylene	Rp	Parallel female thread, pressure tight in the thread to ISO 7-1/DIN 2999-1
PVDF	Polyvinylidene fluoride	Tr	Trapezoid thread
EPDM	Ethylene Propylene Rubber	SC	Size of hexagon bolts
FPM	Fluorine Rubber, e.g. Viton®	s	A/F
NBR	Nitrile Rubber	e	Wall thickness
IIR	Butyl Rubber	AL	Number of bolt holes
CSM	Chlore Sulphonyl Polythene, e.g. Hypalon®	®	Registered trade-mark
CR	Chloroprene Rubber, e.g. Neoprene®		
PTFE	Polytetrafluorethylene, e.g. Teflon®		
PBTP	Polybutylene terephthalate		
UP-GF	Unsaturated polyester resin glassfibre reinforced		
St	Steel		
Ms	Brass		
Tg	Malleable Iron		
d	Pipe outside diameter		

# Fittings

## General information

### Materials

The material PVC-U conforms with the corresponding recommendations of the German Federal Board of Health.

### Standards

All the main dimensions of solvent cement fittings and adaptor pipe fittings, such as nominal bore, z dimensions, socket depth and diameter, are in accordance with ISO Recommendations, ISO Draft Resolutions for millimetre pipes and DIN 8063.

Solvent cement joint	Threaded joint	Flange joints
ISO 727	ISO 7/1	DIN 2501/8063
DIN 8063	ISO 228/1	ISO 7005
DIN EN ISO 15493	DIN 2999	BS 4504
NF T54-028/016	UNI 338	ANSI / B16.5
DIN EN 1452-3	BSI 21	
ASTM D-2464		
ANSI B 1.20.1		

For PVC-U Fittings in British Standard please request our special literature.

### Jointing

#### Solvent cement jointing:

Pipes with outside diameter tolerances in accordance with ISO 11922-3 can be readily jointed with George Fischer fittings.

#### Threaded joint:

Threaded plastic fittings should be jointed to plastic pipes or to other plastic parts. Jointing to metal pipes or fittings is permissible only where there is little stress, and should be carried out with great care.

### Solvent Cement

A cement with gap-filling properties must be used.

Our instructions for solvent connections are based on the use of TANGIT solvent cement.

### Nominal Pressure

Unless otherwise stated:

Conditional pressure for solvent cement fittings and adaptor fittings:

PN 16, i.e. 16 bar at 20°C (water).

Conditional pressure for threaded fittings:

PN 10, i.e. 10 bar at 20°C (water).

### Marking

Solvent cement and adaptor pipe fittings from George Fischer are marked as follows:

- +GF+
- pipe o.d. or pipe thread size
- Material

Pressure rating:

M = PN 16

unmarked = PN 10

S 6.3/PN 16 = PN 16

S 10/PN 10 = PN 10

Threaded pipe fittings from George Fischer are marked as follows:

- +GF+
- pipe thread size
- Material

Reducing fittings are marked in the following sequence (Fig. 1):

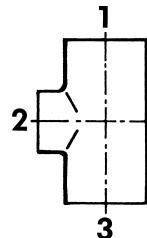

Fig. 1

### Angle Marking

PVC fittings for solvent cement jointing from George Fischer are being supplied with a 45° angle marking (Fig. 2).

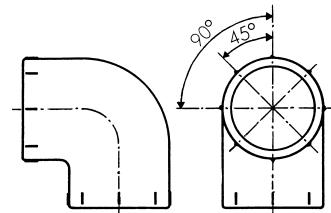

Fig. 2

### Dimensions

All dimensions are given in mm.

### Information Service

For detailed information see our Catalogue "Plastic Piping Systems".

### Quality Mark

The George Fischer PVC-U fittings are tested to the following national standards institutes. The quality and test levels of our PVC-U fittings are constantly inspected by these institutes in our works.

BSI, Kite Mark, England

NF, Marque de qualité, France

KIWA, Netherlands

UNI, Istituto Italiano Plastici, Italy

ÖNORM, Austria Plastics Institute, Austria

DIBT, TÜV Bavaria, Germany

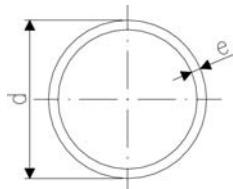

### Orders

Always quote the George Fischer code number when placing orders.

## Elbows 90°, PVC-U metric - Rp

### Model:

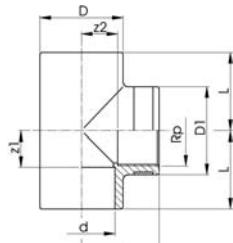

- With solvent cement socket metric and parallel female thread Rp
- Reinforcing ring stainless (A2)
- Connection to plastic or metal
- Do not use thread sealing pastes that are harmful to PVC-U
- Install with low mechanical stress and avoid large cyclic temperature changes

\* without reinforcement, connection only for plastic threads

## Tees 90°, PVC-U metric - Rp

### Model:

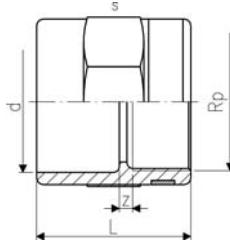

- With solvent cement socket metric, branch with parallel female thread Rp
- Leaving with cylindrical pipe internal thread Rp
- Reinforcing ring stainless (A2)
- Connection to plastic or metal
- Do not use thread sealing pastes that are harmful to PVC-U
- Install with low mechanical stress and avoid large cyclic temperature changes

\* without reinforcement, connection only for plastic threads

## Thread Unions, PVC-U Rp-Rp

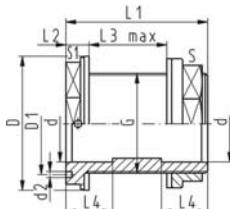

216406 216900 216001

**Model:**

- Union End: Parallel female thread Rp
- Union Bush: Parallel female thread Rp
- Union nut: PVC-U
- Gasket: O-Ring EPDM No. 48 41 00
- Can be supplied with FPM O-Ring No. 49 41 00
- Connection to plastic thread only
- Do not use thread sealing pastes that are harmful to PVC-U

## Flange Adaptors, PVC-U

### Jointing face with O-ring groove, metric

**Model:**

- Solvent cement socket metric
- Counterpart: Flange Adaptor flat No. 21 80 01  
Combined Flange Adaptor (d160, d200, d225, d280, d315)
- Gasket: O-ring EPDM No. 48 41 01, FPM No. 49 41 01
- Flange: PVC-U No. 21 70 00, PP-V for socket systems metric No. 27 70 04

## Backing Flanges, PP-V for Socket Systems metric

### Model:

- Modern full-plastic flange PP-GF (30 % glass-fibre reinforced)
- With V-groove which applies force evenly on collar
- With integrated bolt retainers as an assembly aid
- Connecting dimension: ISO 7005 PN 10, EN 1092 PN 10, DIN 2501 PN 10

1) Suitable for socket- and butt fusion systems (no pictograph on flange)

## Backing Flanges, PP/Steel for Socket Systems Inch/ANSI

**Model:**

- For socket systems
- For Flange Adaptors BS (ANSI)
- Material: PP (30 % glass-fibre reinforced) with steel ring
- Connecting dimension ANSI B 16.5 / ASTM D 4024
- DN100 and DN150: only for use with original metric flange adaptors

# Hand-Operated Valves

## General Information

### Material

The material PVC-U conforms with the corresponding recommendations of the German Federal board of Health.

### Standards

All the main dimensions, such as nominal bore, z dimensions, socket depth and diameter, are in accordance with ISO Recommendations, ISO Draft Resolutions for millimetre pipes and DIN 8063.

Solvent cement joint	
ISO 727 DIN 3441 PrEN ISO 16135...16199 NF T54-028 PrEN ISO 21787	on request ANSI JIS BSI

Thread joint	Flange joint	
ISO 7-1 DIN 2999-9	DIN 2501/8063	on request ANSI JIS BSI

For PVC-U Valves in British Standard please request our special literature.

### Jointing

Solvent cement jointing:  
Pipes with outside diameter tolerances in accordance with ISO 11922-3 can be readily jointed with George Fischer Valves.

#### Threaded joint:

BSP parallel female threads are in accordance with ISO 7/1 or DIN 2999. Threaded plastic Valves should be jointed to plastics pipe or to other plastics parts. Jointing to metal pipe or fittings is permissible only where there is little stress, and should be carried out with great care.

### Solvent Cement

A cement with gap-filling properties must be used.

Our instructions for solvent connections are based on the use of TANGIT solvent cement.

### Nominal Pressure

see column PN

### Marking

George Fischer valves are marked as follows:

- +GF+
- pipe o.d.
- pipe nominal bore
- material
- pressure rating: PN ...

### Overall length

When used with flange adaptors or union ends from George Fischer, the lengths of valves correspond to EN 558-1. ISO 5752

### Dimensions

All dimensions are given in mm.

### Information Service

For detailed information see our Catalogue "Plastic Piping Systems".

### Quality control conforming to DIN 3441, Part 1

The function and tightness of every valve are factory-tested. Testing is carried out with air under water.

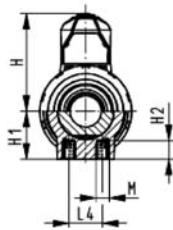

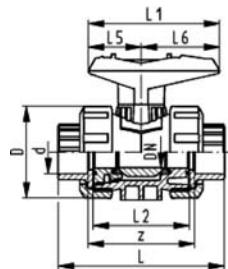

### Orders

Always quote the George Fischer code number when placing orders.

### Ordering example

8 ball valves 161 546 005

# Ball valves

## Ball valve type 546 PVC-U With mounting inserts With solvent cement sockets metric

### Model:

- For easy installation and removal
- z-dimension, valve end and valve nut are **not compatible** with type 346
- Ball seals PTFE
- Integrated stainless steel mounting inserts

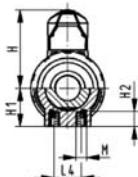

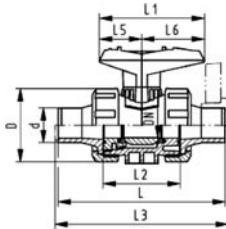

### Option:

- Individual configuration of the valve (see form)
- Multifunctional module with integrated limit switches
- Pneumatic or electric actuators from +GF+

## Ball valve type 546 PVC-U With mounting inserts With threaded sockets Rp

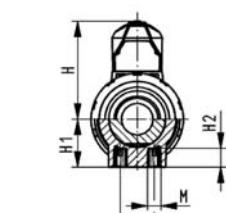

### Model:

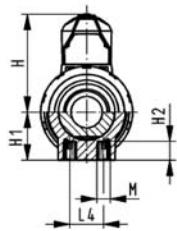

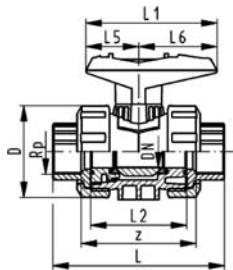

- For easy installation and removal
- z-dimension, valve end and valve nut are **not compatible** with type 346
- Ball seals PTFE
- Integrated stainless steel mounting inserts

### Option:

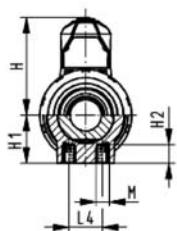

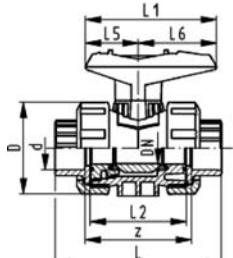

- Individual configuration of the valve (see form)
- Multifunctional module with integrated limit switches
- Pneumatic or electric actuators from +GF+

## Ball valve type 546 PVC-U without mounting inserts With fusion sockets PE 100 metric

### Model:

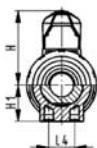

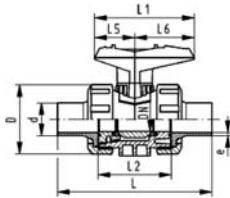

- For easy installation and removal
- z-dimension, valve end and valve nut are **not compatible** with type 346
- Ball seals PTFE
- Without mounting inserts

### Option:

- Individual configuration of the valve (see form)
- Multifunctional module with integrated limit switches
- Pneumatic or electric actuators from +GF+

## Ball valve type 370 PVC-U With backing flanges PVC-U metric

### Model:

- Ball seals PTFE
- Pneumatic or electric actuator available separately
- For easy installation and removal
- Jointing face flat
- Overall length EN 558-1
- Connecting Dimensions: metric 2501 PN 10

## 3-Way ball valve type 343 PVC-U vertical With solvent cement sockets metric

### Model:

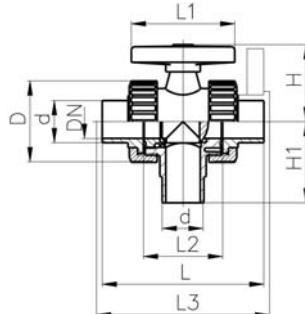

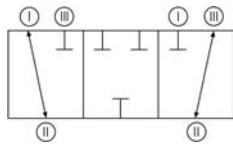

- L-port ball
- Easy installation and removal using union on third outlet
- Ball seals PTFE
- Electric actuator available separately
- Angle of operation 180°, without turn limiter

### mode of action:

- For interconnection of two inputs

### 3-Way ball valve type 343 PVC-U Horizontal/ L-port With solvent cement spigots metric

#### Model:

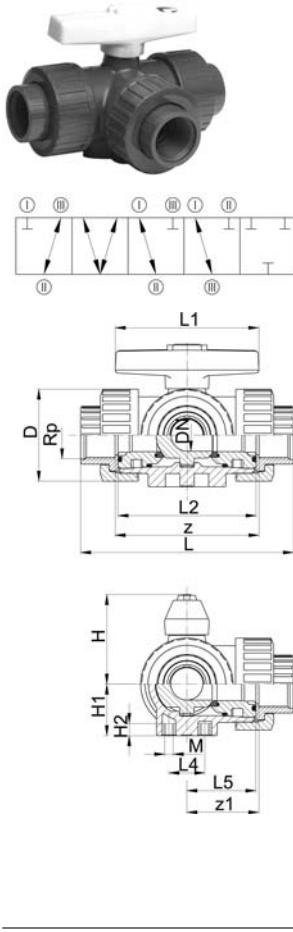

- L-port ball
- For easy installation and removal
- Ball seals PTFE
- Pneumatic or electric actuator available separately
- Angle of operation 45°, without turn limiter

## Ball valve bracket type 126 PVC-U

### Model:

- Can be fitted to existing installations without interrupting their operation
- Easily assembled without tools
- Enable Georg Fischer plastic valves to be mounted in control panels
- For Ball Valves Type 343 (only vertical model up to size DN25)

## Diaphragm valve type 315 PVC-U With solvent cement spigots metric

### Model:

- Overall length EN 558-1

### Option:

- Handwheel with built-in locking mechanism (standard version is nonlockable)

## Diaphragm valve type 317 PVC-U With PVC-U flanges metric

### Model:

- Jointing face flat
- With backing flanges DN 15-65
- With fixed flanges DN 80-150
- Overall length EN 558-1
- Connecting dimension: ISO 7005 PN 10, EN 1092 PN 10, DIN 2501 PN 10
- DN 80 and DN 100 additional to ANSI B16.5

### Option:

- Handwheel lockable DN15-65 (basic version not lockable)

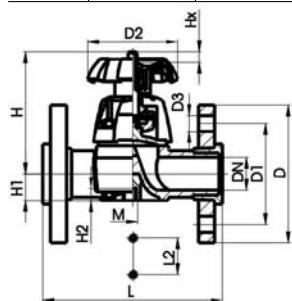

\* with PVC-U fixed flanges, d90 DN80 with combined metric- and ANSI-screw-hole circle

DN 65 - 200

DN 250 - 300

## Butterfly valve type 367 PVC-U Lever handle with ratchet settings

### Model:

- Jointing face flat
- Overall length ISO 7508
- Overall length EN 558-1
- Connecting dimension: ISO 7005 PN10, EN 1092 PN 10, DIN 2501 PN10

**Phase out product will be replaced with type 567 for Dimension DN65-200**

The PTFE coat of the disc seal only serves to optimise frictional behaviour (dry lubrication) and does not result in improved chemical stability.

# Wafer check valves

## Wafer check valve type 369 PVC-U Without spring metric

### Model:

- Supporting eyelets for simple fitting
- Suitable for vertical and horizontal mounting

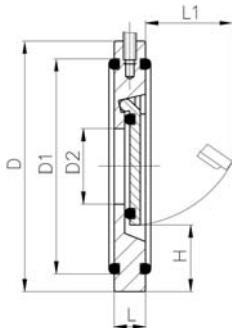

### Installation instruction:

- Installation between ISO/DIN flange adaptors with flat jointing face.
- Centering by body diameter
- Sealing with O-rings
- A stabilizing zone of at least 5 times nominal diameter (DN) should be provided before and after the wafer check valve (10 times DN is recommended)
- No direct installation on pump flange or following bend allowed
- Wafer check valves without reset spring are not recommended for pulsating flows (production of noise)

## Wafer check valve type 369 PVC-U With V4A spring (stainless steel 316)

### Model:

- Supporting eyelets for simple fitting
- Suitable for vertical and horizontal mounting

### Installation instruction:

- Installation between ISO/DIN flange adaptors with flat jointing face.
- Centering by body diameter
- Sealing with O-rings
- A stabilizing zone of at least 5 times nominal diameter (DN) should be provided before and after the wafer check valve (10 times DN is recommended)
- No direct installation on pump flange or following bend allowed
- Wafer check valves without reset spring are not recommended for pulsating flows (production of noise)

# One system - many options

Georg Fischer presents the new 567/568 type series of butterfly valves with a comprehensive range of products and a multitude of interesting combination possibilities. We can offer you, for example, manual valves with hand lever or reduction gear. The program also includes pneumatically or electrically actuated valves from DN50 to DN200.

Our system's modular design principle allows you to exchange individual system components – fast, easily and at very little expense. You also have a choice of materials: PVC-U, PVC-C, ABS, or  $\beta$ -PP-H and PVDF.

Our standard sealing materials are EPDM and FPM, but other materials are available on request.

All the customary installation pipe standards are supplied:

- metric: DIN, EN, ISO
- inch: BS, ASTM
- JIS (only wafer-type valves)
- DIN (only wafer-type valves)

With this wide range of products to choose from you can always be sure of having the best possible solution for your application. The new butterfly valves type 567/568 from Georg Fischer Piping Systems conform to the following international standards:

**prEN ISO 16136**  
Industrial valves – butterfly valves in thermoplastic materials

**ISO9393**

Thermoplastic valves – pressure test methods and requirements  
**EN558**  
Face-to-face length of butterfly valves corresponds to EN558  
**Approvals pending:**  
DIBt, NSF61, TA Luft

**prEN ISO 16136**  
Industrial valves – butterfly valves in thermoplastic materials

**ISO9393**

Butterfly valve with electric actuator; optional manual override and electric position indicator

**EN558**  
Face-to-face length of butterfly valves corresponds to EN558

**Approvals pending:**  
DIBt, NSF61, TA Luft

**ISO9393**

Butterfly valve with pneumatic actuator – double acting; optional manual override

**Standard**  
**Wafer-type butterfly valve**  
**Type 567**

**Standard**  
**Lug type butterfly valve/**  
**end installation**  
**Type 568**

Butterfly valve with fine adjustment

**ISO9393**

Butterfly valve with reduction gear

**EN558**  
Face-to-face length of butterfly valves corresponds to EN558

**ISO9393**

Butterfly valve with pneumatic actuator – single acting

**ISO9393**

Butterfly valve with electric actuator; optional manual override and electric position indicator

# Ball valves electric

## Ball valve type 107 PVC-U 100-230V With manual emergency override With solvent cement sockets metric

### Model:

- Built on with electric actuator EA11
- For easy installation and removal
- Integrated stainless steel mounting inserts
- Voltage 100-230 V, 50-60 Hz
- Control range 90°<
- Control time 5 s/90°<)

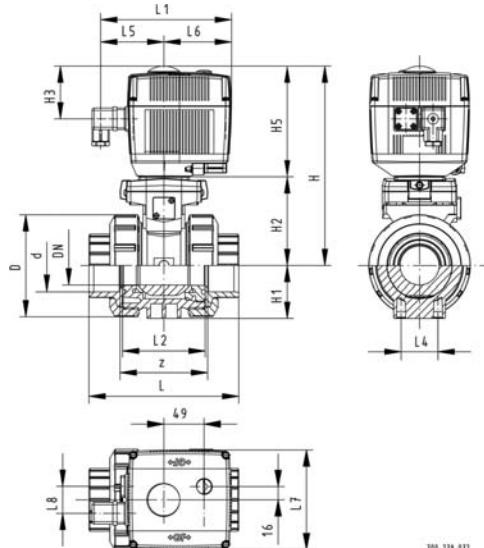

### Option:

- Individual configuration of the valve (see form)

## Ball valve type 130 PVC-U 100-230V With manual emergency override With solvent cement sockets metric

**Model:**

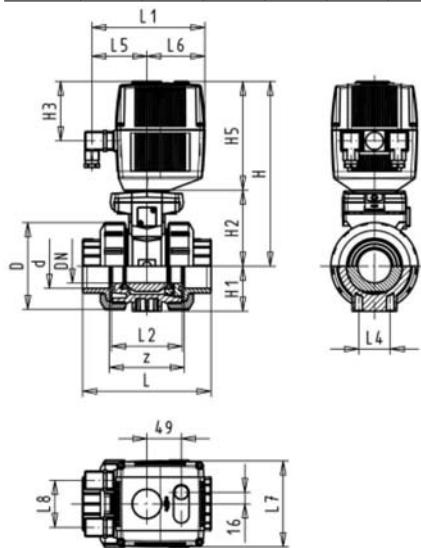

- Built on with electric actuator EA21
- For easy installation and removal
- Integrated stainless steel mounting inserts
- Voltage 100-230 V, 50-60 Hz
- Control range 90°<)
- Control time 5 s/90°<)

**Option:**

- Individual configuration of the valve (see form)

## Ball valve type 108 PVC-U 115/230V With manual override With flanges PVC-U metric

**Model:**

- Adjustable voltages for 115/230 V, 50-60 Hz
- For easy installation and removal
- Control range 90°<)
- Control time 8 s/90°<)
- Overall length according to EN 558-1

### 3-Way ball valve type 175 PVC-U Horizontal/T-port 100-230V With manual emergency override With solvent cement sockets metric

#### Model:

- Built on with electric actuator EA21
- For easy installation and removal
- Integrated stainless steel mounting inserts
- Voltage 100-230 V, 50-60 Hz
- Control range 90°<
- Control time 5 s/90°<)

#### Option:

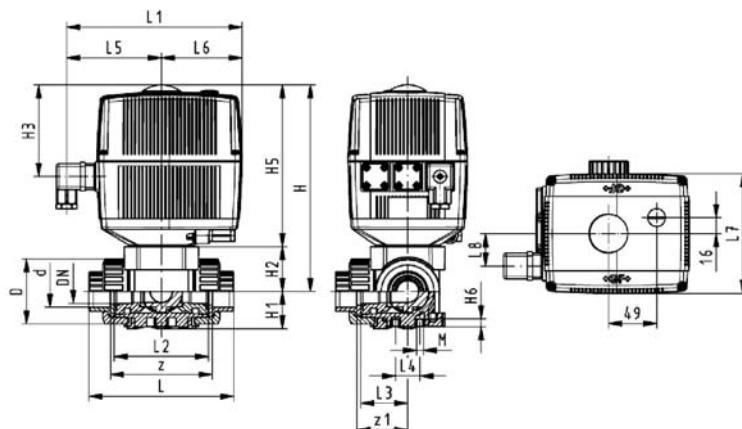

- Individual configuration of the valve (see form)

# Ball valves pneumatic

## Ball valve type 230 PVC-U FC (Fail safe to close) With manual override With solvent cement sockets metric

### Model:

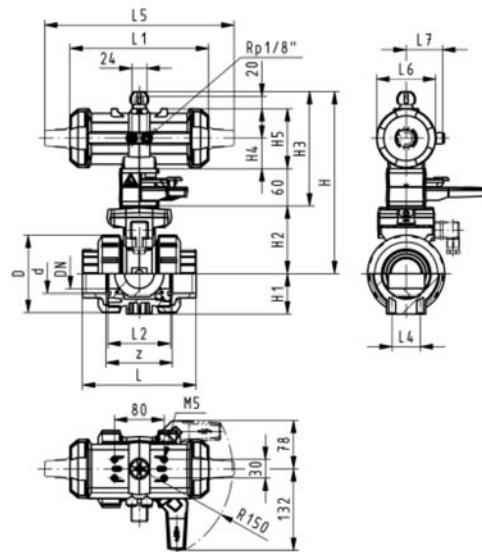

- Built on with pneumatic actuator PA11/21
- For easy installation and removal
- Integrated stainless steel mounting inserts
- Control time 90° < 1-2 s

### Option:

- Individual configuration of the valve (see form)

## Ball valve type 230 PVC-U DA (Double acting) With manual override With threaded sockets Rp

### Model:

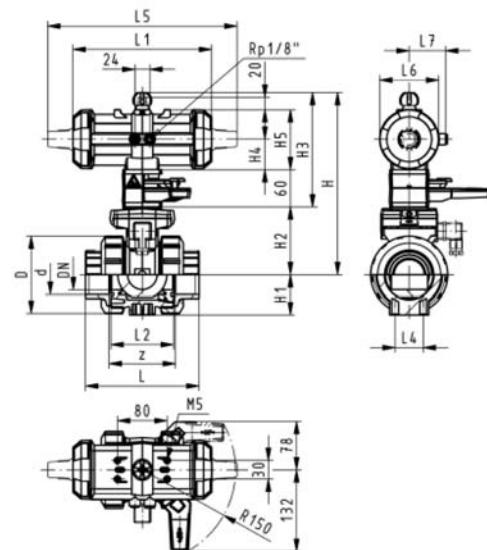

- Built on with pneumatic actuator PA11/21
- For easy installation and removal
- Integrated stainless steel mounting inserts
- Control time 90° < 1-2 s

### Option:

- Individual configuration of the valve (see form)

**Ball valve type 230 PVC-U FO (Fail safe to open)  
Without manual override  
With fixed flanges serrated metric**

**Model:**

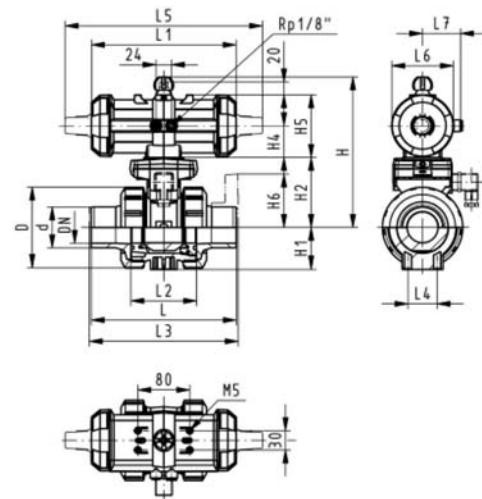

- Built on with pneumatic actuator PA11/21
- For easy installation and removal
- Integrated stainless steel mounting inserts
- Control time 90° < 1-2 s
- Overall length according to EN 558-1
- Connecting dimensions: ISO 7005 / EN 1092 / DIN 2501 PN10

**Option:**

- Individual configuration of the valve (see form)

**3-Way ball valve type 275 PVC-U  
Horizontal/T-port FC (Fail safe to close)  
Without manual override  
With solvent cement spigots metric**

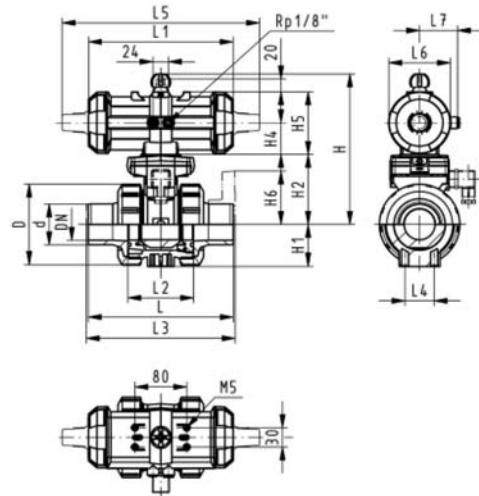

**Model:**

- Built on with pneumatic actuator PA11/21
- For easy installation and removal
- Control time  $90^\circ < 1-3$  s
- Integrated stainless steel mounting inserts

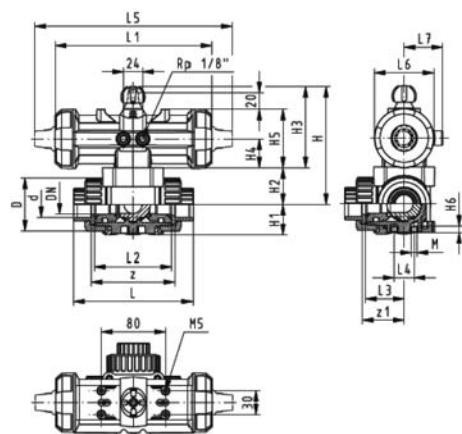

**Option:**

- Individual configuration of the valve (see form)

# Butterfly valves electric

## Butterfly valve type 140 PVC-U 100-230V Without manual override

### Model:

- Connecting dimension: ISO 7005 PN 10, EN 1092 PN 10, DIN 2501 PN 10, ANSI B 16.5 Class 150, BS 1560: 1958, JIS B 2220
- Overall length according to EN 558-1, ISO 5752
- Voltage 100-230 V, 50-60 Hz
- Control time 15 s/90°<) EA31
- Control time 8s/90°<) EA41
- Control range 90°<)
- Actuator with integrated emergency manual override standard

## Butterfly valve type 240 PVC-U DA (Double acting) Without manual override

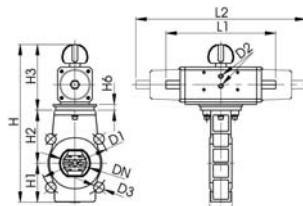

### Model:

- Connecting dimension: ISO 7005 PN 10, EN 1092 PN 10, DIN 2501 PN 10, ANSI B 16.5 Class 150, BS 1560: 1958, JIS B 2220
- Overall length according to EN 558-1, ISO 5752
- Control range 90°<

# General information

## PVC-U Piping systems for surface finish and varnishing technology

### Silicon free / paint compatible

Growing environmental awareness, continually increasing requirements and regulations covering the emission of toxic substances have led to the development of water soluble varnishes and paints.

The use of new varnishing techniques can reduce emissions by up to 90%.

**For the production, transport and processing of water soluble paints and varnishes only pipe components can be used which are free from substances causing varnish wetting faults, such as silicones, certain greases, oils and waxes.**

### George Fischer – an experienced partner

George Fischer has collaborated closely from the very beginning with manufacturers, plant constructors and operators in this special field of surface finish and varnishing technology. We have successfully supplied plant constructors and users of varnishing processes, e. g. the automobile industry, for many years.

Maximum demands are made of our production:

- Silicon free separating agents in the moulding shop
- Absolute care during cleaning, installation and packing
- Uncompromising quality control
- Quality assurance system certified to ISO 9001

### Fittings

The composition of the raw material (granulate) is silicon free. All standard fittings are produced with silicon free separating agents. The fittings are packed in a cardboard box after injection moulding in standard quantities (SP) protected by a plastic bag.

George Fischer recommends the selection of standard packs when ordering fittings, in order to prevent contamination on the way to the final consumer.

### Hand operated valves and unions

The individual parts of the valves and unions are cleaned with distilled water (14 megaohms) in a special cleaning process. They are assembled in a special working area wearing silicon free protective gloves.

Sliding parts are smeared lightly in accordance with requirements with special lubricants suitable for varnishing, e. g. Synthese PRO AA4.

Every valve and union is designated with the following sticker:

SILICON FREE

Valves and unions are packed individually in a sealed bag.

### Seals

Seals are subjected to the same production, cleaning and packing process as hand operated valves and unions.

### Maintenance

For safety reasons we recommend changing the entire valve body when dismantling the valves.

# Ball valves

## Ball valve type 546 PVC-U SF With mounting inserts With solvent cement sockets metric

### Model:

- With PVDF ball seal
- Silicone-free / paint-compatible
- For easy installation and removal
- z-dimension, valve end and valve nut are **not compatible** with type 346
- Integrated stainless steel mounting inserts

### Option:

- Individual configuration of the valve (see form)
- Multifunctional module with integrated limit switches

### 3-Way ball valve type 343 PVC-U SF Horizontal/ T-port With solvent cement sockets metric

#### Model:

- T-port ball
- Silicone-free / paint-compatible
- Union ends for easy installation and removal
- Pneumatic or electric actuator available separately
- Angle of operation 90°, without turn limiter

## Diaphragm valve type 317 PVC-U SF With PVC-U flanges metric

### Model:

- Silicone-free / paint-compatible
- Jointing face flat
- With backing flanges DN 15-65, fixed flanges DN 80-150
- Overall length EN 558-1
- Connecting dimension: ISO 2501 PN 10

### Option:

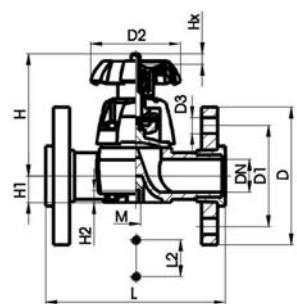

- Handwheel lockable DN15-65 (basic version not lockable)

## Notes:

## Notes:

## **Notes:**

# General Condition of Supply of Georg Fischer Piping Systems Limited, Schaffhausen

## 1 General

- 1.1 These General Conditions shall apply to all Products supplied by Georg Fischer to the Purchaser. They shall also apply to all future business even when no express reference is made to them.
- 1.2 Any deviating or supplementary conditions especially Purchaser's general conditions of purchase and verbal agreements shall only be applicable if accepted in writing by Georg Fischer.
- 1.3 The written form shall be deemed to be fulfilled by all forms of transmission, evidenced in the form of text, such as telefax, e-mail, etc.

## 2 Tenders

Tenders shall only be binding if they contain a specifically stated period for acceptance.

## 3 Scope of Delivery

- 3.1 Georg Fischer's product range is subject to change.
- 3.2 The confirmation of order shall govern the scope and execution of the contract.

## 4 Data and Documents

- 4.1 Technical documents such as drawings, descriptions, illustrations and data on dimensions, performance and weight as well as the reference to standards are for information purposes only. They are not warranted characteristics and are subject to change.
- 4.2 All technical documents shall remain the exclusive property of Georg Fischer and may only be used for the agreed purposes or as Georg Fischer may consent.

## 5 Confidentiality, Protection of Personal Data

- 5.1 Each party shall keep in strict confidence all commercial or technical information relating to the business of the other party, of which it has gained knowledge in the course of its dealing with the other party. Such information shall neither be disclosed to third parties nor used for other purposes than those for which the information has been supplied.
- 5.2 In the context of the contractual relation with the Purchaser personal data may be processed. The Purchaser agrees to the disclosure of said data to third parties such as foreign subcontractors and suppliers etc.

## 6 Local Laws and Regulations, Export Controls

- 6.1 The Purchaser shall bring to the attention of Georg Fischer all local laws and regulations at the place of destination which bear connection with the execution of the contract and the adherence to relevant safety regulations and approval procedures.
- 6.2 In case of re-exports, Purchaser shall be responsible for compliance with pertinent export control regulations.

## 7 Price

- 7.1 Unless agreed otherwise, the prices shall be deemed quoted net ex works (according to Incoterms of the ICC, latest version) including standard packing. All supplementary costs such as the cost of carriage, insurance, export-, transit- and importlicences etc. shall be borne by the Purchaser. The Purchaser shall also bear the costs of all taxes, fees, duties etc. connected with the contract.
- 7.2 If the costs of packing, carriage, insurance, fees and other supplementary costs are included in the tender price or contract price or are referred to specifically in the tender or confirmation of order, Georg Fischer reserve the right to revise their prices accordingly should any change occur in the relevant tariffs.

## 8 Terms of Payment

- 8.1 The Purchaser shall make payment in the manner agreed by the parties without any deductions such as discounts, costs, taxes or dues.
- 8.2 The Purchaser may only withhold or off-set payments due against counter claims which are either expressly acknowledged by Georg Fischer or finally awarded to the Purchaser. In particular, payment shall still be made when unessential items are still outstanding provided that the Products already delivered are not rendered unusable as a result.

## 9 Retention of Title

- 9.1 The Products shall remain the property of Georg Fischer until the Purchaser shall have settled all claims, present and future, which Georg Fischer may have against him.
- 9.2 Should the Purchaser resell Products to which title is reserved, in the ordinary course of business, he shall hereby be deemed to have tacitly assigned to Georg Fischer the proceeds deriving from their sale together with all collateral rights, securities and reservations of title until all claims held by Georg Fischer shall have been settled. Until revoked by Georg Fischer, this assignment shall not preclude Purchaser's right to collect the assigned receivables.
- 9.3 To the extent the value of the Products to which title is reserved together with collateral securities exceeds Georg Fischer's claims against the Purchaser by more than 20%, Georg Fischer shall re-assign the above proceeds to Purchaser at his request.

## 10 Delivery

- 10.1 The term of delivery shall commence as soon as the contract has been entered into, all official formalities such as import and payment permits have been obtained and all essential technical issues have been settled. The term of delivery shall be deemed duly observed when, upon its expiry, the Products are ready for despatch.
- 10.2 Delivery is subject to the following conditions, i.e. the term of delivery shall be reasonably extended:
  - a) If Georg Fischer are not supplied in time with the information necessary for the execution of the contract or if subsequent changes causing delays are made by the Purchaser.
  - b) If Georg Fischer are prevented from performing the contract by force majeure. Force majeure shall equally be deemed to be any unforeseeable event beyond Georg Fischer's control which renders Georg Fischer's performance commercially impractical or impossible, such as delayed or defective supplies from sub contractors, labour disputes, governmental orders or regulations, shortages in materials or energy, serious disturbances in Georg Fischer's works, such as the total or partial destruction of plant and equipment or the breakdown of essential facilities, serious disruptions in transport facilities, e.g. impassable roads.  
Should the effect of force majeure exceed a period of six months, either party may cancel the contract forthwith.  
Georg Fischer shall not be liable for any damage or loss of any kind whatsoever resulting therefrom, any suspension or cancellation being without prejudice to Georg Fischer's right to recover all sums due in respect of consignments delivered and costs incurred to date.
  - c) if the Purchaser is in delay with the fulfilment of his obligations under the contract, in particular, if he does not adhere to the agreed conditions of payment or if he has failed to timely provide the agreed securities.
- 10.3 If for reasons attributable to Georg Fischer the agreed term of delivery or a reasonable extension thereof is exceeded, Georg Fischer shall not be deemed in default until the Purchaser has granted to Georg Fischer in writing a reasonable extension thereof of not less than one month which equally is not met.  
The Purchaser shall then be entitled to the remedies provided at law, it being however understood that, subject to limitations of Art. 16, damage claims shall be limited to max. 10% of the price of the delayed delivery.
- 10.4 Part shipments shall be allowed and Georg Fischer shall be entitled to invoice for such partial deliveries.
- 10.5 If the Purchaser fails to take delivery within a reasonable time of Products notified as ready for despatch, Georg Fischer shall be entitled to store the Products at the Purchaser's expense and risk and to invoice them as delivered. If Purchaser fails to effect payment, Georg Fischer shall be entitled to dispose of the Products.
- 10.6 Should Purchaser cancel an order without justification and should Georg Fischer not insist on the performance of the contract, Georg Fischer shall be entitled to liquidated damages in the amount of 10% of the contract price, Georg Fischer's right to prove and claim higher damages remaining reserved. Purchaser shall be entitled to prove, that Georg Fischer has suffered no or a considerably lower damage.

## 11 Packing

If the Products are provided with additional packing over and above the standard packing, such packing shall be charged additionally.

## 12 Passing of Risk

- 12.1 The risk in the Products shall pass to the Purchaser as soon as they have left Georg Fischer's works (EX WORKS, Incoterms ICC, latest version), even if delivery is made carriage-paid, under similar clauses or including installation or when carriage is organized and managed by Georg Fischer.
- 12.2 If delivery is delayed for reasons beyond Georg Fischer's control, the risk shall pass to the Purchaser when he is notified that the Products are ready for despatch.

## 13 Carriage and Insurance

- 13.1 Unless agreed otherwise, the Purchaser shall bear the cost of carriage.
- 13.2 The Purchaser shall be responsible for transport insurance against damage of whatever kind. Even when such insurance is arranged by Georg Fischer it shall be deemed taken out by the order of and for the account of the Purchaser and at his risk.
- 13.3 Special requests regarding carriage and insurance shall be communicated to Georg Fischer in due time. Otherwise carriage shall be arranged by Georg Fischer at their discretion, but without responsibility, by the quickest and cheapest method possible.  
In case of carriage-paid delivery transport arrangements shall be made by Georg Fischer. If the Purchaser specifies particular requirements, any extra costs involved shall be borne by him.
- 13.4 In the event of damage or loss of the Products during carriage the Purchaser shall mark the delivery documents accordingly and immediately have the damage ascertained by the carrier. Not readily ascertainable damages sustained during carriage shall be notified to the carrier within six days after receipt of the Products.

## 14 Inspection, Notification of Defects and Damages

- 14.1 The Products will be subject to normal inspection by Georg Fischer during manufacture. Additional tests required by the Purchaser shall be agreed upon in writing and shall be charged to the Purchaser.
- 14.2 It shall be a condition of Georg Fischer's obligation under the warranties stated hereinafter that Georg Fischer be notified in writing by the Purchaser of any purported defect immediately upon discovery. Notice concerning weight, numbers or apparent defects is to be given latest within 30 days from receipt of the Products, notice of other defects immediately latest within 7 working days after discovery, in any event within the agreed warranty period.
- 14.3 Purchaser shall not dispose of allegedly defective Products until all warranty and/or damage claims are finally settled. At its request, defective Products are to be placed at Georg Fischer's disposal.
- 14.4 At its request, Georg Fischer shall be given the opportunity to inspect the defect and/or damage, prior to commencement of remedial work, either itself or by third party experts.

## 15 Warranty

- 15.1 At the written request of the Purchaser, Georg Fischer undertake to repair or replace at their discretion, as quickly as possible and free of charge all Products supplied which demonstrably suffer from faulty design, materials or workmanship or from faulty operating or installation instructions.  
In order to protect employees from toxic or radioactive substances which may have been transported through defective parts returned to Georg Fischer's sales organisation, said parts must be accompanied by a Material Safety Disclosure Form. The form may be obtained from Georg Fischer's local sales company or via [www.piping.georgfischer.com](http://www.piping.georgfischer.com).  
Replaced parts shall become property of Georg Fischer.
- 15.2 For Products which are manufactured to specifications, drawings or patterns supplied by the Purchaser, Georg Fischer's warranty shall be restricted to proper materials and workmanship.
- 15.3 The Purchaser shall be entitled to cancel the contract or to demand a reduction in the contract price if also a second attempt to repair or replace the Products has failed.
- 15.4 For Products or essential components manufactured by a third party and supplied by Georg Fischer under this contract, Georg Fischer's warranty is limited to the warranty provided by said third party.
- 15.5 This warranty shall not apply to damage resulting from normal wear and tear, improper storage and maintenance, failure to observe the operating instructions, overstressing or overloading, unsuitable operating media, unsuitable construction work or unsuitable building ground, improper repairs or alterations by the Purchaser or third parties, the use of other than original spare parts and other reasons beyond Georg Fischer's control.
- 15.6 No action or claim may be brought by the Purchaser on account of any alleged breach of warranty or any other obligation of Georg Fischer after the expiration of twelve (12) months from receipt of the Products by the end user or at the latest within eighteen (18) months of the Products being despatched by Georg Fischer.
- 15.7 In case of Products for use in domestic installations or in utilities
  - Georg Fischer will assume the costs of dismantling the defective Product and restoring the damaged object as well as, in case of negligence, all other direct damages caused by the defective Product (damage to property and injury to or death of persons) up to CHF 1 000 000 per occurrence.
  - the statute of limitations for warranty or damage claims – contrary to Section 15.6 – will be 5 years from the date of installation.

## 16 Limitation of Liability

- All cases of breach of contract and the relevant consequences as well as all rights and claims on the part of the customer, irrespective on what ground they are based, are exhaustively covered by these general conditions of supply. In particular, any claims not expressly mentioned for damages, reduction of price, termination or withdrawal from the contract are excluded. In no case whatsoever shall the customer be entitled to claim damages other than compensation for costs of remedying defects in the supplies. This in particular refers, but shall not be limited, to loss of production, loss of use, loss of orders, loss of profit and other direct or indirect or consequential damage. This exclusion of liability, however, does not apply to unlawful intent or gross negligence on the part of Georg Fischer and in case of strict liability under applicable product liability statutes, but does apply to unlawful intent or gross negligence of persons employed or appointed by Georg Fischer to perform any of its obligations.

## 17 Severability

- Should any term or clause of these General Conditions in whole or in part be found to be unenforceable or void, all other provisions shall remain in full force and effect and the unenforceable or void provision shall be replaced by a valid provision, which comes closest to the original intention of the unenforceable or invalid provision.

## 18 Place of Performance and Jurisdiction

- 18.1 Place of performance for the Products shall be the Georg Fischer works from which the Products are despatched.
- 18.2 Any civil action based upon any alleged breach of this contract shall be filed and prosecuted exclusively in the courts of Schaffhausen, Switzerland.  
Georg Fischer however reserves the right to file actions in any court having jurisdiction over controversies arising out of or in connection with the present contract.
- 18.3 The contract shall be governed by Swiss law without regard to conflict of law provisions that would require the application of another law.
